

Make your own lip balm

1. Scoop one tablespoon of coconut oil into a small mixing bowl
2. Using a pipette, add 2 or 3 drops of your favourite flavourings (e.g. caramel flavouring, orange extract or vanilla extract)

3. Add 2 or 3 drops of food colouring if you wish and a small amount of edible glitter if you'd like a shimmery lip balm.
4. Mix together well ('mash' with a spoon so the coconut oil melts slightly and it will be easier to mix).

5. Scoop the mixture into your lip balm tin and close the lid.
6. Design your label on a round sticker and stick it onto the lid. Don't forget to add your name!
7. Pop your lip balm in the fridge for 10 minutes to set.
